Saturday, April 23, 2022

Christ Lutheran Church
4519 Providence Road
Charlotte, NC

Benefiting sarcoma clinical trials and translational research at:

YOUR INVESTMENT IS MAKING MEASURABLE IMPACT

ABOUT OUR FOUNDATION

Paula and Geoffrey Takacs of Charlotte, NC founded the Paula Takacs Foundation for Sarcoma Research in 2010 to privately fund novel research for this rare and complex universe of cancers. Sadly, Paula lost her life to sarcoma in 2014, but we proudly continue her work through **INVESTING LOCALLY** in cutting-edge clinical trials and laboratory research. The proceeds of the foundation's annual Sarcoma Stomp fund sarcoma research at Levine Cancer Institute and Levine Children's Hospital in Charlotte. To date, the foundation has donated over \$1.6M for research, making it one of the most successful grassroots sarcoma foundations in the United States.

The Paula Takacs Foundation is a 501(c)(3) nonprofit.
Our EIN# is 27-3366677.

WHAT IS SARCOMA?

Sarcomas are malignant tumors of the bones and connective tissue, such as muscles, fat, cartilage, nerves, tendons, and blood vessels. They can form anywhere in the body - arms, legs, trunk, head, and neck. There are over 50 types of sarcomas! Sarcomas comprise less than 1% of adult cancers and approximately 15% of pediatric cancers.

YOUR IMPACT AT OUR BENEFICIARIES

With a commitment to every community it serves, Atrium Health seeks to improve health, elevate hope and advance healing – for all. The net proceeds of our Sarcoma Stomp fundraiser will help fund groundbreaking research projects at our beneficiaries Levine Cancer Institute and Levine Children's Hospital, directly impacting patient treatments and care, and laser focused on the goal of improving outcomes. **In 2022, projects will include a clinical trial, testing of a sarcoma-specific blood biopsy technique, biomarker sequencing studies, and other slated research initiatives.** Because sarcomas are so rare, there is very little governmental funding of research. In order to improve lives in our community – and ultimately help find cures globally – private philanthropy is critically needed to fund new research. There are only a handful of sarcoma organizations in the United States funding research, and we are very proud to be one of the largest and most effective foundations in this disease space, thanks to our dedicated partnership with Atrium Health.

A CRITICAL NEED FOR SARCOMA RESEARCH

Only **1 first line treatment** exists for the 50+ types of soft tissue sarcomas, first approved by the FDA in **1974**.

Approximately 50% of bone sarcomas and about 20% of soft tissue sarcomas are diagnosed in **people under the age of 35**.

We are working hard to improve the overall **5-year survival rate of approximately 50%** for those with bone and soft tissue sarcomas. This figure hasn't improved in the last 4 decades!

BRAND & CULTURAL ALIGNMENT

When you support the Sarcoma Stomp, you are aligning your business with a culture of responsibility, and a community of fiercely courageous cancer survivors. This event represents not only a chance to support a cancer research foundation that has measurably moved the needle of hope forward, but it also provides you and your employees with a significant opportunity for volunteerism, and team building. In fact, we're more than just runners and walkers donating to research. An army of highly respected, and compassionate health care professionals, surgeons, and researchers, as well as friends and families join us each year! One of the largest sarcoma events in the United States!

Remember, **100% of the proceeds of the Sarcoma Stomp stay LOCAL – ultimately benefiting Levine Cancer Institute and Levine Children's Hospital -- where research and clinical trials have already helped improve patient outcomes as a result of a strong philanthropic alliance with the Paula Takacs Foundation!**

By investing in our mission to fund local research and expand global hope, local Charlotte families as well as those across the globe will know you are helping to bring cures to all sarcoma patients. Join us now and let us promote your brand before, during and after the Sarcoma Stomp as a conscious contributor to our mission of hope.
